| Q18 | General comments about the instructor: | | | | | |
| | <i>Lu Wei is a very knowledgable instructor.</i> | | | | | |
| | <i>Lu Wei is a very good instructor, each lesson explanation is very clear and good class structure.</i> | | | | | |
| | <i>He is very dedicated, but maybe some additional visual material would be nice, other than just writing on the whiteboard.</i> | | | | | |
| | <i>He's nice. probably in the future he could use slides for teaching</i> | | | | | |
| | <i>Improved a lot and made learning much better</i> | | | | | |
| | <i>Lu Wei is an extremely patient and knowledgeable instructor. He's got a great way of getting us to think about what methods should be used. He then uses the methods we propose, and show us how it's good or bad, and how the taught method is better. I like that he doesn't tell us that "now we're going to learn this algorithm", but instead leads into it seamlessly from the previous topic, and finally ends with "this algorithm you just learnt is ..."</i> | | | | | |
| | <i>I hope to occasionally have other audio-visual material in class rather than 100% pure whiteboard teaching.</i> | | | | | |
| | <i>Has improved greatly since the first few weeks.</i> | | | | | |
| | <i>A nice teacher!</i> | | | | | |
| | <i>more proactive and encourage questions in class in the second half of the term compared to speeding through the content in first half</i> | | | | | |
| | <i>The instructor is very clear and meticulous in his instruction. The recaps at the beginning of every lesson are also helpful for reviewing what has already been taught during previous lessons.</i> | | | | | |
