Good with explanations. Lessons are very well paced for me. Very well planned with recap at the start and conclusion a team the end with a primer of what is to come in the next lesson. Gives breaks during lessons and walks around to answer questions.

One of the best teacher that I've had. Really good presentation of the materials. He appears to me to be genuinely wanting to help students grasp new knowledge.

notes can have more graphs and example to reinforce learning

His teaching is very clear and it helps student understand alot easier.
